

# Simply Print This Pattern At Full Scale

## How To Make An Adapter Fitting For Any Size Vacuum Hose To Work With Your BigFoot Dust Collector System

Cut This Out Of 3/4" Pine Or Plywood

1. Measure The Inside Diameter Of Your Vacuum Hose
2. Take A Compass And Draw Your Inside Diameter Using The "X" As Your Center
3. Then Simply Cut Out The Center Hole And Your Outside Diameter Circles
4. Slide Your Adapter Ring Onto Your Dust Collector Fitting And Epoxy It In Place.

**Note:**  
If You Do This Before Your Dust Collector Arrives You Will Be All Set To go!

Now You Can Install The Fitting Into Your Dust Collector And Slide Your Vacuum Hose Over Your New Fitting!! Enjoy...
